CAREER SUMMARY

I am a Frontend Engineer with 8 years of experience working with Javascript base technologies such as React & AngularJS. I have experience with web3, design systems, and micro-frontend apps.
 I also led a team of 4 developers, interviewed front-end candidates, and collaborated with the product and design teams to initiate and push projects forward (e.g. a Design System).
Therefore I would prefer to continue, potentially in a technical leadership role.

WORK EXPERIENCE

Frontend Engineer
DPG Media, Amsterdam Netherlands
Sep 2022 - Present

- On probation.

Senior Frontend Engineer, Promoted to Chapter Lead
Virtually Human Studio, Australia
Aug 2021 - Aug 2022 (13 months)

- I Initiated and am maintaining ZED.RUN(a VHS company)'s design system project resulting in a 20% decrease in main project's lines of code so far to have higher maintainability.
- Working closely with backend developers, asking for better data schematics so we can have less data process in the frontend, achieving less clutter and process by 10% so far.
